#### TOON BOOM

Drawing: ██████████  
Rigging: ██████████  
Bone Deformers: ██████  
IK Animation: ██████  
Frame by Frame: ██████

### WORK EXPERIENCE

#### EIPHEO STUDIOS 2012 - 2015

##### Freelance Animator

- Created several animations ranging from :30 - 3:00 minutes in length for a variety of clients using software such as Adobe After Effects, Illustrator, Art Rage and more.
- Was involved in several stages of the production process on nearly all occasions, from initial storyboards to asset creation to final animation.
- Utilized a variety of styles depending on the client's vision, ranging from swift and clean vector art to fun and bouncy cartoon action.
- Followed all scripts, reference materials, production direction and revision notes that were provided during the creation process.
- Communicated thoughts and ideas to team-members clearly, voicing concerns over style decisions or deadline issues when necessary.

#### STONE CANOE 2012

##### 3D Modeling (internship)

- Built a 3D bicycle model based on Biria's CitiBIKE Step-through series in Cinema 4D for a short film to be aired on BRAVO.
- Applied preliminary paint, leather and metal materials to model.
- Assisted fellow interns with learning the 3D software.

#### STYLEX MEDIA DESIGN 2011

##### Animation/Web Design (internship)

- Animated graphics for company logo using high-resolution Photoshop images and Adobe After effects.
- Designed and built the illustration website fORM2function for company client Hans Koopman using Photoshop and Dreamweaver.

### EDUCATION

#### ANIMATION ADVANCED DIPLOMA 2009 - 2012

##### School of Media, Loyalist College

Dean's List Graduate

Courses: 3D Animation, Audio/Video Production, Game Design, Web Design, Interactive Media and Programming.
